

HEVIK[®]
TO SUIT YOU

COLLECTION 2025

A man and a woman are riding a motorcycle on a city street. The man is in the driver's seat, looking forward, while the woman sits behind him, looking slightly to the side. They are both wearing black motorcycle jackets. The man's jacket has a "HEVIK" patch on the chest. The woman's jacket has a stylized "H" patch on the sleeve. The motorcycle is a Triumph, with the brand name visible on the fuel tank. The background is a blurred city street with buildings and traffic lights.

BECAUSE YOU NEED IT

Enjoy a comfortable and safe ride

ARTICA

PRODUCT BOX
ARTICA

 **HVV100MB**
BLACK/ORANGE

DESCRIPTION

Is the new cooling vest from HEVIK, that thanks to the innovative technological fabric Kewlfabric™ is designed for high and specific performances to help the rider when riding in extreme weather conditions in high temperatures, absorbing and slowly releasing the liquids in excess and activating a natural evaporative cooling process. HEVIK ARTICA cooling vest is lightweight and designed to avoid any possible impediments to the natural riding positions. The stretch fabric parts guarantee excellent adherence to the body to obtain maximum technical performance.

HEVIK ARTICA cooling vest is the ideal complement to use together with the NASHIRA technical shirt to obtain an ideal riding condition while avoiding fatigue due to high temperatures.

FIRST USE

Immerse the product under water, gently squeeze out excess water and allow the product to dry completely. This allows the fabric fibers to activate and create the conditions to start the absorption and cooling process during use.

H-FULL BACK ARMOR

HPB04

Multilayer back protector allowing optimal shock absorption without compromising comfort, ventilation and flexibility.
In case of a fall or a collision, the MEMORY FOAM layers flow individually, distributing the shock and limiting the transmitted energy to the spine and to the general area of the back. Designed to be positioned inside the back pocket of any Hevik jacket made for either men or women, is available in three sizes, with a length from 44cm to 52cm . CE approved, type of protection CB (central back protection)-certified according to EN1621-2:2014 standard, level 2 (the more protective).

A close-up photograph of a person wearing safety gear. They are wearing black safety gloves with bright yellow reflective stripes and a black mesh palm side. They are also wearing a grey safety vest with reflective yellow stripes. The person is holding a black, textured object, possibly a piece of equipment or a tool. The background is blurred, showing green foliage.

MATERIALS AND FEATURES

- The HEVIK glove display shelf is a perfect design with the functionality to showcase multiple products in the best possible way.
- Its purpose is to create an efficient, easy-to-move, and visually appealing display space without affecting the store's layout.
- The shelf is equipped with four blue LED light strips inside both sides. These lights can be turned on or off using a 6-outlet power plug located at the bottom. The blue lighting highlights the details and enhances the visibility and visual quality of the gloves.
